About

Recent graduate and mother of two, building a second career in software after a decade with a background in electronics and communication engineering. Currently studying frontend development at Futurgame while learning database work with PostgreSQL and Supabase, after completing a full-stack program in Sweden. Looking for a junior fullstack role to turn that groundwork into shipped, production work.

Skills

Interface

HTML, CSS, Tailwind CSS, JavaScript, TypeScript, React, Next.js

Server & data

Node.js, Express, REST APIs, Swagger, PostgreSQL, Supabase

Quality & workflow

Testing, Integration testing, Git, Postman

Beyond the code

Software development, Strategic planning & visioning

Education & Training

Frontend Developer course — Futurgame

Sep 2025 — May 2027 (*in progress*)

Deepening frontend skills, alongside self-directed database study with PostgreSQL and Supabase.

Backend Developer track — Sundsgårdens folkhögskola, Helsingborg

Jan 2025 — Jun 2025

Server-side JavaScript, APIs, and databases, building on the frontend term before it.

Frontend Developer track — Sundsgårdens folkhögskola, Helsingborg

Aug 2024 — Jan 2025

HTML, CSS, JavaScript and React, moving from static pages to component-based interfaces.

B.Tech, Electronics & Communication Engineering — JNTU, Anantapur

Jun 2009 — May 2013

Undergraduate engineering degree.
